Tiny Tiger Preschool Program Policies and Procedures

I. TINY TIGERS' PRESCHOOL QPPS 10.1

Morning Sun Community School was awarded the Statewide Voluntary Preschool Program Grant in 2010 as a result of the Preschool Advisory Committee's dedicated work. The program's goal is to provide a high quality preschool program meeting each child's needs, including children with disabilities and those from a diverse background. The preschool provides a rich learning environment that encourages children's natural curiosity and supports them to take risks that lead to new skill development. It is a setting where children feel safe, respected, and cared for. This is an opportunity for all four-year-old children to take part in planned, active learning experiences to build their readiness skills. The preschool program has adopted and meets the Iowa Quality Preschool Program Standards, administered by the Iowa Department of Education. The Iowa Early Learning Standards are used to guide expectations for the children and instructional practices.

II. MISSION, PHILOSOPHY, AND GOALS QPPS 10.1

Mission:

The mission of Morning Sun Community School District, in cooperation with the community it serves, is to educate all students by providing a future oriented, comprehensive, quality education in a positive, caring environment through unique programs which meet their special needs and prepare them to be contributing members of a changing society.

PreK-6th Grade School Philosophy of Education:

The purpose of our educational system:

- To provide students with the basic knowledge that will become the stepping stone life-long learning.
- To provide the financial resources, within our means, that allow our staff to provide the instruction and curriculum to meet the needs of our students.
- To provide an equal opportunity and a desirable atmosphere for a quality education.
- To provide the students with quality teachers and role models, so that learning is not only for the knowledge gained; but to be applied to living a good and productive life.

Goals for Children:

- ♦ Children will show competency in social/emotional, physical, cognitive, and language development skills.
- ♦ Children will be enthusiastic and curious learners.
- ♦ Children will be safe and healthy.

Goals for Families:

- ♦ Families will feel welcome in the classroom and school.
- ♦ Families will work with the school in a meaningful partnership to help their children be better prepared to learn to read and write.
- ♦ Families will advocate for their children.

III. ENROLLMENT

Equal Educational Opportunity

Students, Parents, employees and others doing business with or performing services for the Morning Sun School District are hereby notified that this school district does not discriminate on the basis of sex, race color, national origin, marital status, sexual orientation, gender identity or disability in admission or access to, or treatment in, its program or activities. Any person having inquires concerning the school district’s compliance with the regulations implementing Title VI, Title VII, Title IX, the Americans with Disabilities Act (ADA), Section 504 or Iowa Code Section 280.3 is directed to contact the school’s Affirmative Action Coordinator, Alaura Rappenecker, at 311 Division St., Morning Sun, IA 52640, or phone (319)-868 7101. Inquiries may also be directed in writing to the Director of the region VII Office of CivilRights, US Department of Education, 310 W. Wisconsin Ave., Ste. 800, Milwaukee, Wi, 53203-2292, (414) 291-1111, or the Iowa Department of Education, Grimes State Office Building, Des Moines, IA 50319-0146, (515) 281-5294. Procedures and levels are outlined in district policy for resolving complaints and are available upon request from the curriculum director's office.

Eligibility

Children must be four years of age prior to September 15th of the current school year. Pre-registration will begin in the spring of the year. Registration materials are available from the elementary secretary and during Registration Night. Final registration will occur in the fall. State law limits Tiny Tigers’ Preschool to 20 students. Since we are limited on enrollment Tiny Tigers’ Preschool will give resident students of Morning Sun preference. Students of a sibling already attending Morning Sun Elementary will be given the next preference followed by resident students of Wapello and Winfield-Mt. Union.

If Tiny Tigers’ Preschool has over 20 students, non-siblings, non-Morning Sun, non-Wapello, and non-Winfield-Mt. Union students will be removed based on registration date. If Tiny Tigers’ Preschool is still over 20 students, Wapello and Winfield-Mt. Union students with out siblings will be removed based on registration dates.

Hours

Classes meet for two and a half hours each day, four days per week. Children attend on Monday, Tuesday, Thursday, and Friday. Students do not attend on Wednesdays. This allows for parent meetings and home visits, planning time for the teaching staff, and collaboration with community agencies. The preschool follows the Morning Sun Elementary school calendar.

Preschool session: 10:00 - 12:30 Monday, Tuesday, Thursday, Friday

General Information QPPS 5.1 10.4

Within six weeks after a child begins the program, health records that document the dates of service shall be submitted that show the child is current for routine screening tests and immunizations according to the schedule recommended and published by the American Academy of Pediatrics.

The maximum class size is 20 children in each session based on square footage of the current location. A teaching staff-child ratio of at least 1:10 will be maintained at all times to encourage adult-child interactions and promote activity among children. The elementary principal will maintain a current list of available substitutes for both the teacher and teacher assistant. Should one of the teaching staff need to temporarily leave the room, the teacher will call the elementary office and the principal will arrange for coverage of the classroom to maintain the staff-child ratio. **QPPS 10.4**

Inclusion

The preschool program provides all children, including those with disabilities and unique learning needs. Modifications are made in the environment and staffing patterns in order to include children with special needs. Staff are aware of the identified needs of individual children and are trained to follow through on specific intervention plans. It is our belief that inclusion in our program will enrich the experience for teachers, students, other children and their families. The preschool facilities meet the Americans with Disabilities Act accessibility requirements. **QPPS 9.10**

IV. A CHILD'S DAY

Who Works In The Preschool QPPS 10.2

Program Administrator The elementary principal is designated as the program administrator supervising the preschool program. The principal meets all qualifications described in the Iowa Quality Preschool Program Standards.

Teacher A full-time teacher licensed by the Iowa Board of Educational Examiners and holding an early childhood endorsement is assigned to the preschool classroom. **QPPS 6.2**

Teacher Assistant

A full-time teacher assistant in the classroom carries out activities under the supervision of the teacher. The teacher assistant will have specialized training in early childhood education. **QPPS 6.3**

School Nurse

The preschool will have the assistance of the school nurse. The current nurse is employed part time, is a certified RN, and is recertified every three years. She maintains student health records by updating them quarterly, and attends to the health needs of the students while they are at school. She is available for parent consultation when necessary. **QPPS 10.10**

Support Staff

Great Prairie AEA support staff provide resources and assistance to the teacher and classroom upon request to help all children be successful in the preschool setting. Such staff may include: early childhood consultant, speech and language pathologist, social worker, occupational therapist, physical therapist or others.

Orientation For New Staff (IQPPS 6.1)

Before working alone with children, new staff are given an initial orientation that introduces them to the fundamental aspects of program operation including:

- a. Program philosophy, values and goals;
- b. Expectations for ethical conduct;
- c. Health, safety, and emergency procedures;
- d. Individual needs of children they will be teaching or caring for;
- e. Accepted guidance and classroom management techniques;
- f. Daily activities and routines of the program;
- g. Program curriculum;
- h. Child abuse and neglect reporting procedures;
- i. Program policies and procedures;
- j. Iowa Quality Preschool Program Standards and Criteria; and,
- k. Regulatory requirements.

Daily Activities

A consistent daily schedule is planned to offer a balance of learning activities. Learning is both formal and informal. Play is planned for every day. Listening is balanced with talking, group activities with solitary time, indoors with outdoors, quiet play with noisy play. Your child will have the opportunity for the following types of activities every day:

Large and Small Group Activities	Self-directed Play	Snack
	Story Time	Computers
	Outdoor Activities	Individual Activities

Each day, the children will have choice time among the different interest areas or centers. They will have the opportunity to self-select where they might like to play and work. Examples of interest areas are:

1. **Library** – Students have the opportunity to read and look at a variety of books independently or with peers.
2. **Technology** – the has access to media and technology
3. **Writing** – Students have access to a variety of writing utensils and materials
4. **Art** – Students may choose a variety of art materials to create individual works of art.
5. **Sensory Table** – Students can develop their senses and cognitive development through play in a sensory table. Items may include water, sand, snow, ice, rice, pasta ect. Materials are rotated on a regular basis.
6. **Blocks** – Students can build with different types of blocks and engage in imaginary play with items added to the block center.
7. **Manipulative** – Children will develop cognitive skills, such as counting, problem solving, categorizing and matching.
8. **Science** – Children will explore with a variety of science materials.

Monthly newsletters will be sent home to families informing them of the activities planned for each month in children’s backpacks and electronically, if parents desire.

Curriculum QPPS 2.1

Curriculum is a framework for learning opportunities and experiences. It is a process by which learners obtain knowledge and understanding, while developing life skills. It is continually revised and evaluated to make learning fun and exciting.

It is the policy of this district that the curriculum content and instructional materials utilized reflect the cultural and racial diversity present in the United States and the variety of careers, roles, and life styles open to women as well as men in our society. One of the objectives of the total curriculum and teaching strategies is to reduce stereotyping and to eliminate bias on the basis of sex, race, ethnic origin, religion, and physical disability. The curriculum should foster respect and appreciation for the cultural diversity found in our country and an awareness of the rights, duties, and responsibilities of each individual as a member of a multicultural nonsexist society.

QPPS 1.7

The preschool program uses *Creative Curriculum*, a research and evidence based comprehensive curriculum designed for four-year-olds. It addresses all areas of early learning: language and literacy, math, science, physical skills, and social skills. It is based on thematic units familiar and meaningful to young children such as Homes and Families, Animals, Five Senses, Transportation, and the Farm. It provides children an opportunity to learn in a variety of ways - through play, problem solving, movement, art, music, drawing and writing, listening, and storytelling. Suggestions for modifications and adaptations are an integral part of the curriculum. **QPPS 2.1, 2.2**

Child Assessment QPPS 4.1, 4.2

Guiding principles:

It is the school district's belief that assessment of young children should be purposeful, developmentally appropriate, and take place in the natural setting by familiar adults. The results will be used for planning experiences for the children and to guide instruction. Assessment will never be used to label children or to include or exclude them from a program. A family's culture and a child's experiences outside the school setting are recognized as being an important piece of the child's growth and development. All results will be kept confidential, placed in each child's file, and stored in a secure filing cabinet.

Children are assessed in the following ways:

- Teaching Strategies GOLD – an online-based assessment composed of observations of each child. This is done twice per year.
- Ongoing observations throughout the year
- Child samples and artifacts for portfolios and GOLD observations
- Information shared by families and parents as families are encouraged to share observations about their child's abilities.
- HATCH Ignite will be used daily as an informal assessment through the use of technology that will advance as their skills advance.

The information from the above is used in the following ways:

- To provide information about children's needs, interests, and abilities in order to plan developmentally appropriate experiences for them;
- To provide information to parents about their children's developmental milestones;
- To indicate possible areas that requires additional assessment.

QPPS 7.3, 7.4

Assessment information will be shared formally with families during Parent Teacher Conferences in the fall and spring. The preschool teacher will communicate weekly regarding children's activities and developmental milestones. Informal conferences are always welcome and can be requested at any time.

If, the teacher feels that there is a possible issue related to a developmental delay or other special need, she/he will communicate this to the family, sharing documentation of the concern. Suggestions for next steps may include the following, with the knowledge and consent of the parents:

- The teacher requests assistance from the AIMSS Team as an early intervention process. This team engages in problem identification, plan interventions, provide support, and make outside resources available to those individuals requesting assistance. The AIMSS team is available and functional for all students and teachers in the building.
- A request made to Great Prairie Area Education Agency for support and additional ideas or more formalized testing.

If a child is determined to need special accommodations, those accommodations are included in the materials, environment, and lesson plans for that child. Examples include visuals for children with hearing impairments or language delays and behavior plans for children whose behavior does not respond to the typical strategies used by teaching staff in the classroom.

Program Assessment

Tiny Tigers' Preschool implements the Iowa Quality Preschool Program Standards. We will receive a verification visit the 2012-13 school year to confirm we are meeting these standards. Administrators, families, staff, and other routinely participating adults will be involved annually in a program evaluation that measures progress toward the program's goals and objectives. The annual evaluation process includes gathering evidence on all areas of program functioning, including policies and procedures, program quality, children's progress and learning, family involvement and satisfaction, and community awareness and satisfaction. A report of the annual evaluation findings is shared with families, staff, and appropriate advisory and governance boards. The program uses this information to plan professional development and program quality-improvement activities as well as to improve operations and policies.

Supervision Policy QPPS 9.2

Before children arrive at school, the preschool teacher will complete the following daily safety checklist indoor and outdoor:

- All safety plugs and electric outlets covered, heat/AC, water temperature, and toilets, etc. in working order.
- All cleaning supplies/poisons out of children reach and stored properly.
- Classroom and materials checked for cleanliness/broken parts, etc. including playground.
- Supplies checked - first aid kit, latex gloves, soap, paper towels, etc.
- Daily monitoring of environment - spills, sand, etc. Other serious problems reported to head custodian.
- Upon arrival, each child is observed by the teacher for signs of illness or injury that could affect the child's ability to participate in the daily activities.

No child will be left unsupervised while attending preschool. Staff will supervise primarily by sight. Supervision for short intervals by sound is permissible as long as teachers check every two to three minutes on children who are out-of-sight (ex. those who can use the toilet independently, who are in the library area, etc.)

Child Guidance and Discipline QPPS 1.9

Teaching staff will equitably use positive guidance, redirection, planning ahead to prevent problems. They will encourage appropriate behavior through the use of consistent clear rules, and involving children in problem solving to foster the child's own ability to become self disciplined. Where the child understands words, discipline will be explained to the child before and at the time of any disciplinary action. Teaching staff will encourage children to respect other people, to be fair, respect other's property and learn to be responsible for their actions. Teaching staff will use discipline that is consistent, clear, and understandable to the child. They will help children learn to persist when frustrated, play cooperatively with other children, use language to communicate needs, and learn turn taking.

Challenging Behavior QPPS 1.2, 1.8, 1.9

The teaching staff in the preschool is highly trained, responsive, respectful, and purposeful. The teachers anticipate and take steps to prevent potential challenging behaviors. They evaluate and change their responses based on individual needs.

Teaching staff will guide children to develop self-control and orderly conduct in relationship to peers and adults. Children will be taught social, communication, and emotional regulation skills. If a child displays persistent, serious, and challenging behavior, the teaching staff, parents, and AEA support staff will work as a team to develop and implement an individualized plan that supports the child's inclusion and success.

Aggressive physical behavior toward staff or children is unacceptable. Teaching staff will intervene immediately when a child become physically aggressive to protect all of the children and encourage more acceptable behavior.

Teaching staff help children manage their behavior by guiding and supporting children to:

- Persist when frustrated
- Play cooperatively with other children
- Use language to communicate needs
- Learn turn talking
- Gain control of physical impulses
- Express negative emotions in ways that do not harm others or themselves
- Use problem-solving techniques
- Learn about self and others

Rather than focus on reducing the challenging behavior, teachers focus on...

- Teaching the child social, communication, and emotional regulation skills
- Using environmental modifications, activity modifications, adult or peer support, and other teaching strategies to support the child's appropriate behavior

Prohibited Practices

The program does not, and will not, employ any of the following disciplinary procedures:

1. harsh or abusive tone of voice with the children nor make threats or derogatory remarks.
2. physical punishment, including spanking, hitting, shaking, or grabbing.
3. any punishment that would humiliate, frighten, or subject a child to neglect.
4. withhold nor threaten to withhold food as a form of discipline.

Water activities QPPS 5.7, 9.14

We have a water table in the classroom for children to stand and play with their hands in the water.

During water play children are involved in active experiences with science and math concepts. Children with sores on their hands are not allowed to participate with others in the water table to ensure that no infectious diseases are spread. Children are not allowed to drink the water during water play activities.

When the activity period is complete, the water table is drained and refilled with fresh water before a new group of children comes to participate. Outdoor water play is limited to tubs and buckets or containers as well as the water table. We do not participate in swimming pool activities. Staff supervise all children by sight and sound in all areas with access to water in tubs, buckets, and water tables.

Snacks/Foods and Nutrition QPPS 5.9- 5.17

Attitudes about food develop early in life. The food children eat affects their well-being, their physical growth, their ability to learn, and their overall behavior. We have an opportunity to help children learn about foods, to enjoy a variety of foods from their own culture and others, and to help them begin to

appreciate that their bodies need to be strong, flexible, and healthy. Eating moderately, eating a variety of foods, and eating in a relaxed atmosphere are healthy habits for young children to form.

The preschool serves a wide variety of nutritional snacks, and encourages children to expand their tastes by at least trying a portion of the food offered.

All food is prepared, served, and stored in accordance with the U.S. Department of Agriculture Child and Adult Care Food Program (CACFP) guidelines. Clean, sanitary drinking water is made available to children throughout the day. Staff discards any foods with expired dates. Foods that are hotter than 110 degrees Fahrenheit are kept out of children's reach. Foods requiring refrigeration will be kept cold until served.

For each child with special health care needs, food allergies, or special nutrition needs, the child's health care provider should provide the program individualized care plan prepared in consultation with family members and specialist involved in the child's care. Children with food allergies shall be protected from contact with the problem food. With family consent, the program posts information about the child's allergies in the food preparation area and in areas of the facility the child uses to serve as a visual reminder to all adults who interact with the child during the day.

The school district does not use foods or beverages as rewards for academic performance or good behavior, and will not withhold food or beverages as a punishment, nor will teaching staff ever threaten to withhold food as a form of discipline.

Outside Play and Learning QPPS 5.4, 9.5-9.7

We have daily opportunities for outdoor play as the weather permits and provided the weather air quality and environmental safety conditions do not pose a threat. This allows children the opportunity to develop their large muscle skills, get exercise, and be active. Sometimes we spend longer getting bundled up than we spend outside. We use the Child Care Weather Watch guidelines produced by Healthy Child Care Iowa to determine if the Wind Chill Factor or Heat Index is safe for outdoor play.

In cases when we cannot go outside (due to weather conditions) children are given the opportunity to use indoor equipment for similar activities inside and are supervised at the same level as outdoor equipment.

In order to make sure that your child can play comfortably outside it is important to dress him/her according to the weather. When it is cold outside, he/she needs a warm coat, mittens or gloves and a hat (labeled with your child's name). For the warmer days dressing your child lightly is just as important. For those in-between days dressing your child in layers is a practical idea.

There are areas on the playground for children to be in the shade and still be active.

Program staff will complete the National Program for Playground Safety's Suggested General Maintenance Checklist on a weekly basis.

Clothing

Your child will be learning through creative, active play that can sometimes be messy. Your child should wear comfortable, washable clothing as well as rubber-soled and closed-toe shoes to school. While we encourage the use of paint smocks or shirts during art projects, we can't guarantee that spills or stains will

not occur. Clothing should be free of words, graphics, or pictures that are profane, immoral, illegal, or disruptive in nature. All families are asked to provide an extra set of clothing for their child in case of an “accident” or messy play. Please clearly label the clothing with your child’s name to reduce the possibility of mistakes.

Toilet Learning QPPS 5.5

For children who are unable to use the toilet consistently, the program makes sure that:

- a) For children who require cloth diapers, the diaper has an absorbent inner liner completely contained within an outer covering made of waterproof material that prevents the escape of feces and urine. Both the diaper and outer covering are changed as a unit.
- b) Cloth diapers and clothing that are soiled by urine or feces are immediately placed in a plastic bag (without rinsing or avoidable handling) and sent home that day for laundering.

Staff check children for signs that diapers or pull-ups are wet or contain feces

- c) At least every two hours when children are awake and
- d) When children are awoken
- e) Diapers are changed when wet or soiled
- f) Staff change children’s diapers or soiled underwear in the designated changing area and not elsewhere in the facility
- g) Each changing area is separated by a partial wall or at least three feet from other areas that children use and is used exclusively for one designated group of children.
- h) At all times, caregivers have a hand on the child when being changed on and elevated surface.

In the changing area, staff

- i) Post changing procedures and
- j) Follow changing procedures
- k) These procedures are used to evaluate teaching staff who change diapers
- l) Surfaces used for changing and on which changing materials are placed are not used for other purposes, including temporary placement of other objects, and especially not for any object involved with food or feeding
- m) Containers that hold soiled diapers and diapering materials have a lid that opens and closes tightly using a hands-free device (e.g., a step can)
- n) Containers are kept closed and
- o) Are not accessible to children
- p) Staff members whose primary function is preparing food do not change diapers until their food preparation duties are completed for the day.

All families are asked to provide an extra set of clothing (kept in the child’s bag) in case of an “accident” or messy play.

Objects From Home

Because the preschool program provides ample toys and learning materials for your child, we ask that you limit toys brought from home. We ask that it is small enough to fit inside his/her backpack or cubby. Please do not allow children to bring gum, candy, money, or toy guns to school. The program cannot be responsible for lost or broken toys brought from home.

Weapon Policy

No student shall carry, have in his or her possession, store, keep, leave, place or put into the possession of another student any real weapon or a look-alike weapon on any school premises, in any school vehicle or any vehicle used by the school or for school purposes, in any school building or other buildings or premises used for school functions, whether or not any person is endangered by such actions. "Look-alike weapon" means any item that resembles or appears to be a weapon. *A zero tolerance policy on dangerous weapons (real or toy) is in effect; i.e., gun, squirt guns, water rifles or pistols, slingshots, toy guns, toy grenades and other similar items knives, etc. Violation may result in a student suspension/expulsion.*

Birthdays QPPS 5.10

Birthdays are an important and significant event in the life of a child. They afford the opportunity for children to be given special recognition. Accordingly, students who wish to bring treats for the class on their birthday may do so. Food that comes from home for sharing among the children must be either whole fruits or commercially prepared packaged foods in factory-sealed containers. The teacher will provide families a list of foods meeting the USDA's Child and Adult Care Food Program guidelines. Those who have summer birthdays are welcome to choose a school day to celebrate with their class. Invitations to parties outside of school that do not include the entire class will not be distributed at school.

V. COMMUNICATION WITH FAMILIES QPPS 1.1, 7.4

Open Door Policy

Parents and legal guardians are always welcome to visit the preschool classroom. As a safety feature, all parents and visitors will check in at the elementary school office. Visitors are asked to please refrain from bringing babies and toddlers to school as young children may disrupt class sessions. Photo identification will be required for a to send to send written notes with important information. Teaching staff will send home regular newsletters and parent notes. Parents are encouraged to maintain regular, ongoing two-way communication with teaching staff in a manner that best meets their needs – email, in person, notes, Remind texts or phone calls.

Arrival and Departure of Children QPPS 10.9

All motor vehicle transportation provided by parents, legal guardians or others designated by parents or legal guardians will include the use of age-appropriate, and size-appropriate seat restraints.

When bringing your child to school, we ask that you park your car in the parking lot and turn off the engine before entering the building. Please hold your child's hand as you enter the building to decrease the possibility of an accident. Parents or legal guardians must either accompany children to the school door at the beginning of the day and leave their child in the care of one of the teaching staff. No child will be permitted to leave the building without an adult.

Other than parents or legal guardian, only persons with prior written authorization (Parent Consent Form) will be allowed to pick up a child from the school. Anyone who is unfamiliar to teaching staff, including authorized individuals, will be asked to present photo identification before a child is released to them.

In the interest of students' safety, parents/guardians/authorized individuals are requested to report directly to the office when picking up their child rather than going to the child's classroom.

When all children have arrived, teaching staff will walk the children to the classroom where the preschool teacher will record attendance for the day. Throughout the day each time children transition from one location to another, ex. classroom to outdoor, the teacher will be responsible for counting the number of children whenever leaving one area and when arriving at another to confirm the safe whereabouts of every child at all times.

Field Trips

An important learning opportunity can take place in the form of a field trip that is relevant and reinforces what has been taught in the classroom. The Morning Sun Elementary school buses are used for these field trips. Parents will be informed of each field trip through a newsletter and signs posted in the classroom well in advance. A parent or legal guardian must sign an informed consent form for trips for each child before each trip. Adult family members are asked to volunteer to go on these trips to provide increased supervision and adult/child ratios. **PLEASE NOTE: WE ASK THAT SIBLINGS DO NOT ACCOMPANY THE FIELD TRIP. MAKE THIS A SPECIAL DAY FOR YOU AND YOUR PRESCHOOL STUDENT!** A notice posting the dates, time of departure, time of return, and the destination location will be posted prominently at least 48 hours before the field trip. Each child will be assigned to an adult for every part of the trip.

During the field trip, all children will wear identifying information that, for children, gives the program name and phone number. A first aid kit, emergency contact information, and emergency transport authorization information for the children in the group will be taken on all trips. Children will be counted often while on a field trip. Children may only use a public restroom if they are accompanied by a staff member. Children will never be left alone in a vehicle or unsupervised by an adult.

Attendance

Students who are enrolled for classes in the Tiny Tigers' Preschool are expected to be in school for the full session and are expected to be punctual in their arrival and departure. Please call the elementary office or the classroom phone with the reason for an absence by the time of class. You may also email the teacher for your convenience.

Ethics and Confidentiality

Staff follow an important code of ethics to guide their involvement with children and families. It is essential to protect the confidentiality of all information concerning children and their families. Maintaining a professional attitude includes being responsive to the needs of children and their families while balancing the need for confidentiality. Children are people who deserve respect. One way we demonstrate this respect is to refrain from talking about the children in their presence unless the child is part of the conversation and to refrain from labeling a child negatively or positively. No information about any particular child shall be shared with another child's parent. We continually strive to model such qualities as patience, tolerance, cooperation, acceptance, understanding of others, and enthusiasm for children as well as for other adults.

Children's Records

Student records containing personally identifiable information, except for directory information, are confidential. Only persons, including employees, who have a legitimate educational interest are allowed to access a student's records without the parent's permission. Parents may access, request amendments to, and copy their child's records during regular office hours. Parents may also file a complaint with the United States Department of Education if they feel their rights regarding their child's records have been violated. For a complete copy of the school district's policy on student records or the procedure for filing a complaint, contact the board secretary in the elementary school administration office.

Parents or guardians will be asked to sign a release of information form should they or the school request information be shared with another agency, stating to whom the information is to be released, the reason or purpose for the release of information, when it expires, and ways the parents can withdraw permission if they choose to do so.

Preschool Advisory Committee QPPS 7.2

The Tiny Tigers' Preschool has a preschool advisory committee composed of parents, school staff and other community members interested in the preschool program. This group meets twice a year to provide feedback on services that meet children and family needs. They also serve as a sounding board for new ideas and services. Please let the preschool teacher know if you are interested in being part of the Preschool Advisory Committee.

Grievance Policy QPPS 7.5

Open and honest communication between families and the preschool program is an essential component of a high, quality early childhood program. We want you to be confident that your child is being well cared for and is having a quality experience. If there is ever a time you have a concern regarding your child, we want to encourage you to address your concern to your child's teacher. If additional help is needed, either party may ask for the assistance from the Elementary Principal/Superintendent, Mr. Doug Graber.

If you have a concern regarding some aspect of the program or policy, please contact the Elementary Principal who is the program administrator for the preschool.

As part of our program assessment, in the spring of each year, we also provide you with a family questionnaire to evaluate our program. This information helps us to assess how the program is meeting the needs of families and children, as well as to identify strengths and weaknesses.

VI. FAMILY INVOLVEMENT QPPS 7.1, 7.2

Tiny Tigers' Preschool encourages families to be very involved in their child's education by observing their children during the day when possible and meeting with staff. Family members are welcome to visit at any time during class sessions.

Teachers and administrators use a variety of formal and informal ways to become acquainted with and learn from families about their family structure and their preferred means of child-rearing practices and communication; and information about their socioeconomic, linguistic, racial, religious, and cultural backgrounds as they wish to share. Families are surveyed in enrollment paperwork regarding their family, beliefs, and preferences. Home visits are conducted at the beginning of the school year. Program staff communicate with families on at least a monthly basis regarding children's activities and developmental milestones, shared care-giving issues, and other information that affects the well-being of their children. Family teacher conferences are held in both the fall and spring semesters, as well as when

either party requests. At least one Family Night is held during the year.

Tiny Tigers' Preschool values the time spent talking and interacting with families and developing strong, reciprocal relationships. As the teacher learns from the families' expertise regarding their child's interests, approaches to learning, and developmental needs, goals for your child's growth and development can be incorporated into ongoing classroom planning. Families are encouraged to share any concerns, preferences or questions with the preschool teacher or administration at any time.

Although in-person daily contact cannot be replaced, preschool staff also rely on notes home, emails, phone calls, and newsletters as alternative means to establish and maintain open, two-way communication.

Tiny Tigers' Preschool invites you to become involved in one or all of the following ways, and welcomes other ideas as well.

1. Support your child's daily transition to school by sharing information about your child's interests and abilities. Keeping the teacher informed of changes and events that might affect your child allows the teacher to be more responsive to your child's needs.
2. Attend family meetings.
3. Return all forms, questionnaires and so on promptly.
4. Attend Family/Teacher conferences in the Fall and Spring semesters.
5. Check your child's backpack each day.
6. Participate in field trip activities.
7. Share some of your talents in your child's class through activities such as: reading or storytelling, cooking, art, music, sewing, crafts, hobbies, your profession, or artifacts from trips you have taken.
8. Share any of your families' cultural traditions, celebrations, or customs.
9. Help prepare snack and enjoy it with your child.
10. Read all the material sent home with your child.
11. Come to play.
12. Help with special events. Helping takes many different forms such as preparation of materials at home, making telephone calls, preparing or posting flyers, recruiting other volunteers, collecting donations or prizes, run errands, photography, setup before the event, or clean afterwards.
13. Serve on the Preschool Advisory Committee.
14. Add to the monthly newsletter or organize it.

It is the policy of the Morning Sun Community School District not to discriminate on the basis of race, national origin, creed, age, marital status, or physical disability in its education programs, activities, or employment policies as required by Title VI or VIII of the 1964 Civil Rights Act, Title IX of the 1972 Education Amendments, and the Federal Rehabilitation Act of 1973.

The school district will, to the extent possible, provide full opportunities for meaningful participation of the families with children with limited English proficiency, families with children with disabilities, including providing information and school reports in an understandable and uniform format including alternative formats on request, and, to the extent possible, in a language families understand.

The school district believes that families should be supported in making decisions about services that their children may need. The teaching staff will provide information to families about available community resources and assist as requested in helping the family make connections.

Home Visits

Home visits are made during the first month of school. This is an opportunity for the preschool teacher to get to know you, your child, and your family and for you to begin to create a partnership between home and school in order to best meet your child's needs. This is a great time for you to share what makes your family unique, how you prefer to communicate with the teacher, and share your knowledge about your child's interests, approaches to learning, and developmental needs. You can help the teacher understand what your goals are for your child and whether you have any concerns you'd like addressed. Parents are encouraged to share these preferences, concerns, and questions at any time with either the classroom teacher or administrator.

Family Teacher Conferences

The preschool program will have formal family teacher conferences at the same time as the elementary school - fall and spring. The teacher will send home a sheet before the conference asking you to consider what new skills you see your child developing at home or in the community, what you'd like more information about regarding the classroom, and whether you have new or different goals for your child. During the conference the teacher will share results of classroom assessments and samples of your child's work. Together you can make a plan to continue to encourage your child's growth and development.

Family Night

Family night is an opportunity for you and your family to come to school to participate in fun as well as educational activities. With help from family volunteers, the night will be planned to meet the needs of the children and families in the classroom.

Transitions QPPS 7.7

Home-school connections are crucial to the transition to kindergarten or any other program, such as special education. The child's family provides the consistency and continuity necessary for a young child to be successful. Making a change from one program to another can sometimes be difficult for a young child whether the transition is within the same building or in another location. Teaching staff will partner with the family to make the transition as smooth as possible by connecting family members with the next program's staff.

VII. HEALTH AND SAFETY

Tiny Tigers' Preschool is committed to promoting wellness and to safeguard the health and safety of children and adults who participate in our program. In order to provide a safe and secure environment for every child and adult, we follow guidelines required by the Quality Preschool Program Standards, regulatory agencies and pediatric authorities in the field.

Health and Immunization Certificates QPPS 5.1

Before your child begins the program, health records that document the dates of service shall be submitted that show the child is current for routine screening tests and immunizations according to the schedule recommended and published by the American Academy of Pediatrics.

When a child is overdue for any routine health services, parents, legal guardians, or both provide evidence of an appointment for those services before the child's entry into the program and as a condition of

remaining enrolled in the program, except for immunization for which parents are using religious exemption.

Health and Safety Records

Health and safety information collected from families will be maintained on file for each child in the school nurse's office. Files are kept current by updating as needed, but at least quarterly. The content of the file is confidential, but is immediately available to administrators or teaching staff who have consent from a parent or legal guardian for access to records; the child's parent or legal guardian; and regulatory authorities, upon request. **QPPS 10.8**

Child Health and Safety Records will include: **QPPS 5.1**

1. Current information about any health insurance coverage required for treatment in an emergency;
2. Results of health examination, showing up-to-date immunizations and screening tests with an indication of normal or abnormal results and any follow-up required for abnormal results;
3. Current emergency contact information for each child, that is kept up to date by a specified method during the year;
4. Names of individuals authorized by the family to have access to health information about the child;
5. Instructions for any of the child's special health needs such as allergies or chronic illness (e.g., asthma, hearing or vision impairments, feeding needs, neuromuscular conditions, urinary or other ongoing health problems, seizures, diabetes);
6. Supporting evidence for cases in which a child is under-immunized because of a medical condition (documented by a licensed health professional) or the family's beliefs. Staff implement a plan to exclude the child promptly if a vaccine-preventable disease to which children are susceptible occurs in the program.

General Health and Safety Guidelines

- All staff must be alert to the health of each child, known allergies, or special medical conditions.
- Under the supervision of the preschool teacher, all staff must be alert to the whereabouts of all children. Systems are in place for accounting for children at regular intervals, especially during periods of transition.
- All staff are to follow proper procedures for hand washing, using disinfectant, and following universal precautions to prevent infections.
- All staff are familiar with evacuation routes and procedures.
- All teaching staff complete "Occupational Exposure to Bloodborne Pathogens" annually.
- At least one staff member who has a certificate of satisfactory completion of pediatric first-aid training, including managing a blocked airway and providing rescue breathing for infants and children, is always present with each group of children. When a child in the group has a special health condition that might require CPR, one staff person who has successfully completed training in CPR is present in the program at all times. **QPPS 5.2**

Illness Policy and Exclusion of Sick Children QPPS 5.3

For the health and safety of all the children, it is mandatory that sick children not be brought to school. If your child has any of the following symptoms during the night, he or she will not be admitted the following morning for the safety of the other children.

- fever greater than 100 degrees F
- vomiting
- diarrhea
- pink eyes with drainage
- cough with congestion and excessive nasal discharge

The center's established policy for an ill child's return:

- Fever free for 24 hours
- Chicken pox: one week after onset (or when lesions are crusted)
- Strep: 24 hours after initial medication
- Vomiting/Diarrhea: 24 hours after last episode
- Conjunctivitis: 24 hours after initial medication or when without drainage

Upon arrival at school, each child is observed by teaching staff for signs of illness or injury that could affect the child's ability to participate comfortably in the daily activities. Children will be excluded when a child is not able to participate comfortably; if the illness requires more care than staff are able to provide without compromising the needs of the other children in the group; or if keeping the child at school poses an increased risk to the child or to other children or adults with whom the child will come in contact.

When a child develops signs of an illness during their day at preschool, parents, legal guardians, or other person authorized by the parent will be notified immediately to pick up the child. For this reason, please be sure that we have **current, accurate phone numbers** for you, your authorized emergency contact person and your child's pediatrician. In the meantime, we will provide the child a place to rest until the parent, legal guardian or designated person arrives under the supervision of someone familiar with the child. If the child is suspected of having a contagious disease, then until she or he can be picked up, the child is located where new individuals will not be exposed.

Reporting Communicable Diseases QPPS 5.3

Staff and teachers provide information to families verbally and in writing about any unusual level or type of communicable disease to which their child was exposed, signs and symptoms of the disease, mode of transmission, period of communicability, and control measures that are being implemented at the program and that the families should implement at home. The program has documentation that it has cooperative arrangements with local health authorities and has, at least annually, made contact with those authorities to keep current on relevant health information and to arrange for obtaining advice when outbreaks of communicable disease occur.

Medication Policies and Procedures QPPS 5.8

Policy: The school will administer medication to children with written approval of the parent and an order from a health provider for a specific child. Because administration of medication in the school is a safety hazard, medication administration will be limited to situations where an agreement to give medicine outside preschool hours cannot be made. Whenever possible, the first dose of medication should be given at home to see if the child has any type of reaction.

Procedure: The school nurse coordinates and/or administers medication during school hours only if the parent or legal guardian has provided written consent and the medication is available in an original labeled prescription or manufacturer's container that is child-resistant. Any other person who would

administer medication has specific training and a written performance evaluation, updated annually by a health professional on the practice of the five right practices of medication administration: (1) verifying that the right child receives the (2) right medication (3) in the right dose (4) at the right time (5) by the right method with documentation of each right each time the medication is given. Medication errors will be controlled by checking and recording these five right practices each time medication is given. Should a medication error occur, the Regional Poison Control Center and the child's parents will be contacted immediately. The incident will be documented in the child's record at the school.

For prescription medications, parents or legal guardians will provide the school with the medication in the original, child-resistant container that is labeled by a pharmacist with the child's name, the name and strength of the medication; the date the prescription was filled; the name of the health care provider who wrote the prescription; the medication's expiration date; and administration, storage, and disposal instructions.

For over-the-counter medications, parents or legal guardians will provide the medication in a child-resistant container. The medication will be labeled with the child's first and last names; specific, legible instructions for administration and storage supplied by the manufacturer; and the name of the health care provider who recommended the medication for the child.

Instructions for the dose, time, method to be used, and duration of administration will be provided to the teaching staff in writing (by a signed note or a prescription label) or dictated over the telephone by a physician or other person legally authorized to prescribe medication. This requirement applies both to prescription and over-the-counter medications.

Medications will be kept at the temperature recommended for that type of medication, in a sturdy, child-resistant container that is locked and prevents spillage.

Medication will not be used beyond the date of expiration on the container or beyond any expiration of the instructions provided by the physician or other person legally permitted to prescribe medication. Instructions which state that the medication may be used whenever needed will be renewed by the physician at least annually.

A medication log will be maintained by the school staff to record the instructions for giving the medication, consent obtained from the parent or legal guardian, amount, the time of administration, and the person who administered each dose of medication. Spills, reactions, and refusal to take medication will be noted on this log. See sample form in Appendix.

Cleaning and Sanitization QPPS 9.11

The facility will be maintained in a clean and sanitary condition. When a spill occurs, the area will be made inaccessible to children and the area will be cleaned immediately.

Staff will be trained in cleaning techniques, proper use of protective barriers such as gloves, proper handling and disposal of contaminated materials, and information required by the US Occupational Safety and Health Administration about the use of any chemical agents.

Routine cleaning will be supervised by the preschool teacher and will follow the Cleaning and Sanitation Frequency Table in Section III, page 47 of the QPPS manual. A checklist will be completed as indicated in the table.

Facility cleaning requiring potentially hazardous chemicals will be scheduled when children are not present to minimize exposure of the children. All cleaning products will be used as directed by the manufacturer's label. Nontoxic substances will be used whenever possible.

Hand Washing Practices QPPS 5.6

Frequent hand washing is key to prevent the spread of infectious diseases. Teachers teach children how to wash their hands effectively. Posters of children using proper hand washing procedures are placed by each sink. The program follows these practices regarding hand washing:

- Staff members and those children who are developmentally able to learn personal hygiene are taught hand-washing procedures and are periodically monitored.
- Hand washing is required by all staff, volunteers, and children when hand washing reduces the risk of transmission of infectious diseases to themselves and to others.
- Staff assist children with hand washing as needed to successfully complete the task.

Children and adults wash their hands:

- upon arrival for the day;
- after diapering or using the toilet (use of wet wipes is acceptable for infants);
- after handling body fluids (e.g., blowing or wiping a nose, coughing on a hand, or any touching of mucus, blood or vomit);
- before meals and snacks, preparing or serving food, or handling any raw food that requires cooking (e.g., meat, eggs, poultry);
- after playing in water that that is shared by two or more people;
- after handling pets and other animals or any materials such as sand, dirt, or surfaces that might be contaminated by contact with animals; and
- when moving from one group to another

Adults also wash their hands

- before and after feeding a child;
- before and after administering medication;
- after assisting a child with toileting; and
- after handling garbage or cleaning.

Proper hand-washing procedures are followed by adults and children and include

- using liquid soap and running water;
- rubbing hands vigorously for at least 10 seconds, including back of hands, wrists, between fingers, under and around any jewelry, and under fingernails; rinsing well; drying hands with a paper towel, or a dryer; and avoiding touching the faucet with just-washed hands (e.g., by using a paper towel to turn off water).

Except when handling blood or body fluids that might contain blood (when wearing gloves is required), wearing gloves is an optional supplement, but not a substitute, for hand washing in any situation listed above.

- Staff must wear gloves when contamination with blood may occur.
- Staff do not use hand-washing sinks for bathing children or removing smeared fecal material.

- In situations where sinks used for both food preparation and other purposes, staff clean and sanitize the sinks before using them to prepare food.
- Hand hygiene with alcohol-based sanitizer with 60% to 90% alcohol is an alternative to traditional hand-washing (for children 24 months and adults) with soap and water when visible soiling is not present.

First Aid Kit QPPS 9.12

A first aid kit is located in the preschool classroom next to the door. It is inaccessible to children, but readily available for adult use. It is fully equipped according to guidance from Healthy Child Care Iowa. Following each use of the First Aid kit, the contents will be inspected and missing or used items replaced immediately. The First Aid kit will be inspected monthly. The first aid kit is taken to the outdoor play areas as well as on field trips and outings away from the site.

Fire Safety QPPS 9.13

A fire extinguisher is installed in the preschool classroom with a tag indicating its annual service date. The fire alarm system is serviced annually. Smoke detectors, fire alarms, and carbon monoxide detectors are tested monthly. A written log of testing dates and battery changes is maintained and available upon request. Fire drills are conducted and recorded on a log.

Medical Emergencies and Notification of Accidents or Incidents QPPS 10.10

The Morning Sun Community School District has in place a “Safety Procedures Section” in the school handbook that describes the following situations and procedures to follow:

- Emergency phone numbers
- Fire procedures
- Utility Failures (electric power failure, water line break, gas line break)
- Severe weather
- Bomb threats
- Physical Threats/Armed Intruder
- Evacuations
- Crisis Intervention Plan, Crisis Intervention Steps, and Media Procedures
- Accidental Injury or Illness procedures for life threatening and non-life-threatening situations

This handbook will be posted by the telephone and included in the first aid kit. The handbook will be reviewed by each staff member at the beginning of each school year and when changes are made to it.

In the event that your child receives a minor, non-life-threatening injury during their time at preschool, our teacher will assess the situation and apply first aid as needed. Minor cuts and scrapes will be treated with soap and water and bumps will be treated by applying ice to the injured area. Any incident or injuries will be documented on an “Injury and Illness” form and a copy will be given to the parent within 24 hours of the incident.

All staff will have immediate access to a device that allows them to summon help in an emergency. The telephone numbers of the Fire Department, Police Department, Hospital, and Poison Control will be posted by each phone with an outside line. Emergency contact information for each child and staff member will be kept readily available. The list of emergency telephone numbers, and copies of emergency contact information and authorization for emergency transport will be taken along anytime children leave the facility in the care of facility staff.

Emergency phone numbers will be updated at least quarterly. Emergency phone numbers will be verified by calling the numbers to make sure a responsive, designated person is available.

Inclement Weather

In the event that the Morning Sun School must be closed due to bad weather, we will notify school patrons by radio as we have in the past. The following radio stations will be notified of the cancellation:

KGRS – Burlington	FM 107.3
KBUR – Burlington	AM 14.90
KILJ – Mt. Pleasant	FM 105.5
KWPC – Muscatine	AM 8.60
Country 103	FM 103.1

Remind texts will also be sent out to parents.

Smoke Free Facility QPPS 9.15

In compliance with the Iowa Smokefree Air Act of 2008, Morning Sun Community School buildings and grounds are smoke free. A “No Smoking” sign meeting the law’s requirements is posted at the entrance to the preschool classroom building to inform people that they are entering a non-smoking place. No smoking is allowed on the school grounds or within sight of any children.

Child Protection Policies QPPS 10.6, 10.12

The health and well being of every child in our care is of the utmost importance and the protection of children is our responsibility. An applicant or volunteer for temporary or permanent employment with the preschool program involves direct interaction with or the opportunity to interact and associate with children must execute and submit an affidavit of clearance from any and all crimes against a child or families. In addition, no person with a substantiated report of child abuse or neglect will come in contact with children in the program or have responsibility for children.

The program has written school board policy for reporting child abuse and neglect as well as procedures in place that comply with applicable federal, state, and local laws. The policy includes requirements for staff to report all suspected incidents of child abuse, neglect, or both by families, staff, volunteers, or others to the appropriate local agencies. Staff who report suspicions of child abuse or neglect where they work are immune from discharge, retaliation, or other disciplinary action for that reason alone unless it is proven that the report is malicious. All teaching staff complete “Mandatory Reporter: Child and Dependent Adult Abuse” at least every five years and within six months of employment.

The school district does not tolerate employees physically, or sexually abusing or harassing students. Students who are physically or sexually abused or harassed by an employee should notify their parents, legal guardians, teacher, principal, or another employee. The Iowa Department of Education has established a two-step procedure for investigating allegations of physical or sexual abuse of students by employees. That procedure requires the school district to designate an independent investigator to look into the allegations. The school district has designated Doug Graber at 868-7701. The alternate investigator is Sally Wenger and may be reached at 868-7701.

Substance Abuse

Persons under the influence of drugs or alcohol will not be permitted on the premises of the Morning Sun Community School. At no time will children be released to a person under the influence of alcohol or drugs.

Volunteers QPPS 10.11

Parents, friends, grandparents, and other adults are encouraged to take an active part in the educational process of the children. Please contact the teacher, the elementary principal, or our office secretary if you would like to be a school volunteer. We have a volunteer job description that defines the role and responsibilities of a volunteer. For safety's sake, if a volunteer will be working with children, he/she will be expected to execute and submit an affidavit of clearance from any and all crimes against a child or families. In addition, no person with a substantiated report of child abuse or neglect will come in contact with children in the program or have responsibility for children.

VIII. Staff QPPS 10.11 - 10.14

General Information

The Morning Sun Community School district has written personnel policies that define the roles and responsibilities, qualifications, and specialized training required of staff and volunteer positions. The policies outline nondiscriminatory hiring procedures and policies for staff evaluation. Policies detail job descriptions for each position, including reporting relationships; salary scales with increments based on professional qualification, length of employment, and performance evaluation; benefits; and resignation, termination, and grievance procedures. Personnel policies provide for incentives based on participation in professional development opportunities. The policies are provided to each employee upon hiring.

Hiring procedures include completion of the following checks: criminal-record check, free from history of substantiated child abuse or neglect check, education credentials, verification of age, completion of high school or GED, personal references and a current health assessment.

Health Assessment

The preschool program maintains current health information from documented health assessments for all paid preschool staff and for all volunteers who work more than 40 hours per month and have contact with children. A current health assessment (not more than one-year-old) is received by the program before an employee starts work or before a volunteer has contact with children. The health assessment is updated every two years. Documented health assessments include:

- Capacities and limitations that may affect job performance
- Documentation by a licensed health professional of TB skin testing using the Mantoux method and showing the employee to be free from active TB disease. For those who have a positive TB skin test and who develop a persistent cough or unexpected fever, immediate assessment by a licensed physician is required. For those who have increased risk of TB according to the Centers for Disease Control (CDC), documentation is required annually by a licensed health professional showing that the employee is free from active TB disease.

Confidential personnel files, including applications with record of experience, transcripts of education, health-assessment records, documentation of ongoing professional development, and results of performance evaluation, are kept in a locked filing cabinet in the Superintendent's office.

Orientation QPPS 6.1

Employees must know their role and duties. New preschool teaching staff will be required to participate in an initial orientation program that introduces them to fundamental aspects of the program operation including:

- Program philosophy, mission, and goals;
- Expectations for ethical conduct;
- Individual needs of children they will be teaching or caring for;
- Accepted guidance and classroom management techniques;
- Daily activities and routines of the program;
- Program curriculum;
- Child abuse and reporting procedures;
- Program policies and procedures;
- Iowa Quality Preschool Program Standards and Criteria;
- Regulatory requirements.

Follow-up training expands on the initial orientations. See Staff Orientation Checklist.

The employee's immediate supervisor should provide the new employee with a review of the employee's responsibilities and duties. The superintendent will explain payroll procedures, employee benefit programs and accompanying forms to the employee. Regular employees ineligible for the school district's group health plan will be given information regarding where they can obtain health care or health care insurance.

Staffing patterns and schedule

The preschool program is in compliance with staff regulations and certification requirements. Our program follows requirements for staffing for Iowa's Quality Preschool Program Standards of maintaining an adult/child ratio of at least 1:10 at all times. The program administrator will maintain lists of current substitutes for both the preschool teacher and the preschool teaching assistant in case of absence. If one of the teaching staff needs to temporarily leave the classroom, the person will call the elementary office to arrange for coverage in order to maintain the adult/child ratio.

Staff development activities QPPS 6.6, 10.15

All teaching staff evaluate and improve their own performance based on going reflection and feedback from supervisors, peers and families. They add to their knowledge and increase their ability to put knowledge into practice. They develop an annual individualized professional plan with their supervisor and use it to inform their continuous development.

Teaching staff will be informed of professional development activities provided by Child Care Resource and Referral, the local Empowerment areas, and the area education agency. Staff are expected to attend all staff trainings and meetings throughout the year. Trainings will focus on early childhood topics relevant to the program and community.

Evaluation and Professional Growth Plan QPPS 6.6

All staff are evaluated at least annually by an appropriate supervisor or, in the case of the program administrator, by the superintendent. Staff also evaluate and improve their own performance based on ongoing reflections and feedback from supervisors, peers, and families. From this, they develop an annual individualized professional development plan with their supervisor and use it to inform their continuous professional development.

A one time \$50.00 (non-refundable) registration fee will be due at the time of registration.
